WHAT TO EXPECT DURING YOUR FIRST VISIT FOR INFERTILITY EVALUATION AND TREATMENT

Welcome and thank you for choosing Coastal Fertility Specialists. We hope your first visit to Coastal Fertility Specialists will enable you to get a chance to tour our facility and meet our staff. To make the most out of your first visit, we feel it is important that we receive any fertility-related medical records that you may have from your current or past physicians or your partner's physicians.

To maximize your visit, we strongly recommend that your partner is present for your visit. Having them present allows us to review their history and allows them to hear the causes, evaluation and treatment approaches to improve your reproductive health. If infertility is part of the reason for your visit, a semen analysis before the visit would help us address any male factor causes during your first visit saving you time and money.

We request that you arrive approximately fifteen (15) minutes prior to your initial consultation so that you can complete and finalize any remaining paper work. Your evaluation will then start with a one hour consultation with one of our reproductive endocrinologists at Coastal Fertility Specialists. During this initial consultation, a comprehensive evaluation will be performed to identify all possible causes of infertility. This evaluation typically includes an ultrasound of the uterus and ovaries to help assess their shape and physiologic status. This will be followed by a discussion of the possible etiologies of your infertility and a discussion of the tests that will help to establish the diagnosis. Several treatment options will be discussed along with the advantages and disadvantages of each treatment option and their associated costs.

Please remember that 20% of all couples have more than one cause of infertility and therefore, even if you are currently suspicious about or know a current cause of your infertility, a thorough evaluation is necessary to identify other causes. It is also important to remember that approximately 40% of all cases of infertility are from a male factor cause. The male factor evaluation can only be performed with a semen analysis and we therefore strongly recommend that a semen analysis be performed during your initial visit so we can discuss the presence or absence of a male factor component.

Dear Prospective Patient:

We are pleased to welcome you to Coastal Fertility Specialists where excellent care and 100% patient satisfaction is the foundation of our practice. This is accomplished through an incredible team of clinicians, laboratory professionals and administrative personnel that make individualizing patient care our highest priority. For more information about our center, our staff, and the procedures we offer please visit our web site at <http://www.coastalfertility.com>

Reproductive endocrinology is a subspecialty of gynecology that involves extra medical training in the medical and surgical care of patients with a variety of reproductive disorders including infertility, recurrent pregnancy loss, premature ovarian failure, developmental abnormalities of the reproductive system, lack of or regular menstrual cycles, and difficulties associated with menopause. Our Physicians are subspecialty trained Reproductive Endocrinologists and are board certified.

Please remember during your evaluation and treatment that infertility is common, affecting over one in nine couples and that couples seeking treatment have a high success rate. In fact, greater than 90% of couples seeking treatment ultimately conceive and the vast majority of couples conceive through very simple treatment protocols.

Infertility treatment in itself can be anxiety provoking and stressful for those involved. Couples undergoing infertility treatment may experience feelings and emotions they have never before confronted. Both acute and chronic stress reactions are common. Coping with infertility treatment can be overwhelming. Our program utilizes the skills of several different professionals trained to help with the emotional aspects of infertility and we can refer you to an experienced counselor at your request.

To maximize your visit, we strongly recommend that your partner is present for your visit. Having them present allows us to review their history and allows them to hear the causes, evaluation and treatment approaches to improve your reproductive health. If infertility is part of the reason for your visit, a semen analysis before the visit would help us address any male factor causes during your first visit saving you time and money.

During your initial visit, you will spend an hour with a reproductive endocrinologist who will review your medical records and will perform a comprehensive physical examination, including a high resolution transvaginal ultrasound to evaluate the reproductive system. Following this visit, we will discuss our physical examination and ultrasound findings and help conclude on a deferential diagnosis and appropriate diagnostic tests. This will then culminate in a treatment plan.

The physicians at Coastal Fertility Specialists have over 45 combined years of reproductive endocrinology experience. In addition to our doctors we have 9 registered nurses who specialize in the evaluation and treatment of infertility to provide the individualized, compassionate patient care you deserve.

Your dreams matter to us and we hope that your visit not only meets your expectations but exceeds your expectations. If we ever fall short of meeting your expectations we encourage you to call so we can make it right.

We look forward to working with you and wish you the best of luck.

TREATMENT OPTIONS

COASTAL FERTILITY SPECIALISTS PROVIDES A WIDE RANGE OF TREATMENT OPTIONS FROM BOTH BASIC TO ADVANCED INFERTILITY TREATMENTS. WE HAVE A VERY SPECIALIZED TEAM OF INFERTILITY PROFESSIONALS FOCUSED ON PROVIDING YOU WITH THE INFORMATION AND GUIDANCE NEEDED TO MAKE INFORMED AND APPROPRIATE TREATMENT DECISIONS.

AFTER YOUR INITIAL CONSULTATION AND COMPLETION OF YOUR INFERTILITY EVALUATION YOUR TREATMENT PLAN CAN BE SPECIALIZED DEPENDING UPON THE CAUSE OF YOUR INFERTILITY. ONE OF THE FIRST STEPS OF INFERTILITY TREATMENT IS OFTEN INTRAUTERINE INSEMINATION.

OVULATION INDUCTION AND INTRAUTERINE INSEMINATION (IUI)

FERTILITY MEDICATIONS ARE USED TO STIMULATE THE WOMAN'S OVARIES TO PRODUCE MORE THAN ONE EGG AND TO ENHANCE THE PREGNANCY RATES. FREQUENT BLOOD TESTS (*TO MONITOR HORMONE LEVELS*) AND ULTRASOUNDS ARE REQUIRED TO MONITOR EGG DEVELOPMENT. WHEN THE EGGS ARE MATURE AN INTRAUTERINE INSEMINATION IS PERFORMED.

INTRAUTERINE INSEMINATION (IUI) IS AN OUTPATIENT PROCEDURE IN WHICH THE MALE PATIENT PRODUCES A SEMEN SPECIMEN THAT IS TAKEN TO OUR LAB TO UNDERGO SPECIAL WASHING TECHNIQUES. THESE TECHNIQUES SELECT SPERM WITH THE BEST MOTILITY AND INCREASE THE AMOUNT OF NORMAL SPERM FOUND IN THE FINAL VOLUME TO BE USED FOR INSEMINATION. A CATHETER IS GENTLY INSERTED THROUGH THE CERVIX TO PLACE SPERM INTO THE UTERUS CLOSE TO THE FALLOPIAN TUBES.

CANDIDATES FOR INTRAUTERINE INSEMINATION INCLUDE PATIENTS WITH AN INFERTILITY DIAGNOSIS OF:

- ❖ ENDOMETRIOSIS
- ❖ CERVICAL FACTOR
- ❖ POSITIVE SPERM ANTIBODY TEST
- ❖ MALE FACTOR
- ❖ UNEXPLAINED INFERTILITY

TREATMENT OPTIONS-CONTINUED

THE COST OF AN IUI CYCLE CAN VARY FROM \$1600 TO \$2000. MEDICATION CAN RANGE FROM \$200 TO \$600, DEPENDING ON THE DRUGS PRESCRIBED AND WHERE THEY ARE PURCHASED.

SUCCESS RATES VARY AND DEPEND UPON THE AGE AND DIAGNOSIS OF THE PATIENT.

IN-VITRO FERTILIZATION (IVF)

IN-VITRO FERTILIZATION (IVF) IS AN OPTION FOR MANY COUPLES WHO CANNOT CONCEIVE THROUGH CONVENTIONAL THERAPIES. PRIOR TO BEGINNING AN IVF CYCLE, PRELIMINARY TESTING WILL BE REQUIRED ON BOTH THE MALE AND FEMALE PATIENTS. AT YOUR CONSULTATION, THE DOCTOR AND NURSE COORDINATOR WILL DISCUSS THE TESTING NECESSARY FOR YOUR SPECIFIC TREATMENT PLAN.

DURING IN-VITRO FERTILIZATION TREATMENT, THE FEMALE PATIENT WILL NEED FERTILITY DRUGS TO STIMULATE EGG PRODUCTION AND CONTROL THE TIMING OF OVULATION. THIS WILL HELP MAXIMIZE THE NUMBER OF EGGS PRODUCED AND INCREASE THE CHANCE OF FERTILIZATION. FREQUENT BLOOD TESTS (*TO MONITOR HORMONE LEVELS*) AND ULTRASOUNDS (*TO MONITOR FOLLICLE DEVELOPMENT*) WILL ALSO BE REQUIRED.

THE EGG RETRIEVAL PROCEDURE IS PERFORMED AT OUR CENTER AND WILL REQUIRE I.V. SEDATION. ONCE THE EGGS ARE RETRIEVED AND THE SPERM IS COLLECTED, THEY WILL BE UNITED BY OUR EMBRYOLOGIST FOR INCUBATION IN OUR LABORATORY. IF THE SPERM QUALITY IS COMPROMISED, THE EGGS WILL BE INSEMINATED WITH A SINGLE SPERM BY A MICROMANIPULATION PROCEDURE KNOWN AS ICSI (*INTRACYTOPLASMIC SPERM INJECTION*).

THREE OR FIVE DAYS AFTER THE RETRIEVAL, THE EMBRYO(S) WILL BE TRANSFERRED INTO THE UTERUS. ELIGIBLE PATIENTS ARE THOSE WITH INFERTILITY DUE TO A CONDITION NOT RESPONSIVE TO CONVENTIONAL THERAPY, INCLUDING ONE OR MORE OF THE FOLLOWING:

TUBAL BLOCKAGE OR FAILED TUBAL REVERSAL

- ❖ ENDOMETRIOSIS
- ❖ CERVICAL FACTOR
- ❖ PELVIC ADHESIONS
- ❖ ANTIBODY PROBLEMS
- ❖ MALE FACTOR
- ❖ UNEXPLAINED INFERTILITY/FAILED CONVENTIONAL THERAPY

THE ESTIMATED COST OF TREATMENT FOR AN IVF CYCLE CAN RANGE FROM \$12,500 TO \$15,000. MEDICATION CAN RANGE FROM \$2,500 TO \$5,500, DEPENDING ON THE DRUGS PRESCRIBED AND WHERE THEY ARE PURCHASED.

TREATMENT OPTIONS-CONTINUED

THE ESTIMATED COST OF TREATMENT FOR AN IVF CYCLE WITH DONOR EGGS CAN RANGE FROM \$17,500 TO \$26,000.

SUCCESS RATES VARY AND DEPEND ON THE AGE AND DIAGNOSIS OF THE PATIENT.

TUBAL REANASTOMOSIS (TUBAL REVERSAL)

MICROSURGICAL REVERSAL OF TUBAL LIGATION IS A DRAMATIC WAY REPRODUCTIVE SURGEONS CAN HELP ASSIST WOMEN WITH PRIOR TUBAL LIGATION BECOME PREGNANT. NUMEROUS STUDIES HAVE DEMONSTRATED 70 TO 80% PREGNANCY RATES WITHIN ONE YEAR AFTER TUBAL REVERSAL. THE REPRODUCTIVE ENDOCRINOLOGISTS AT COASTAL FERTILITY SPECIALISTS HAVE EXTENSIVE EXPERIENCE WITH MICROSURGICAL TUBAL REANASTOMOSIS.

YOU WILL NEED TO HAVE THE OPERATIVE NOTES AND PATHOLOGY REPORT FROM YOUR TUBAL LIGATION MAILED TO OUR CENTER. THIS WILL ENABLE OUR DOCTORS TO DISCUSS YOUR OPTIONS AND SUCCESS RATES AT THE CONSULTATION APPOINTMENT.

THE ESTIMATED COST FOR A TUBAL REVERSAL IS \$11,500.00 INCLUDING HOSPITAL AND ANESTHESIA FEES.

PATIENT FINANCIAL POLICY

In order for Coastal Fertility Specialists (CFS) to maintain a healthy financial position, it is necessary to implement and adhere to collection policies. The policies and procedures listed below will enable CFS to remain a viable health care provider.

Insurance Coverage

The patient or his/her legal guarantor is ultimately responsible for all services incurred. CFS will bill insurance plans if the patient provides the required insurance information and signs an Assignment of Benefits statement. CFS may submit claims for covered services to non-contracted insurance plans as a courtesy, however, the services must be paid in full at the time services are rendered. If the patient has dual coverage, and we do not participate with your primary insurer, the services must be paid in full at the time services are rendered. All information given regarding the ability to pay, third-party insurance, employment, etc., will be subject to verification. Patients with a contracted insurance plan that covers only a portion of the services must pay the difference between the charges and the anticipated insurance payment at the time the services are rendered. All patients receiving medical services are required to provide their social security number prior to services being rendered. Patients with no social security number are required to pay prior to or at the time of service. Patients may be requested to make full payment of unpaid balances when insurance payments are not received after 60 days from the date of billing. A pre-pay deposit may be required prior to all services beginning.

Uninsured Patients/Non-covered Services

Uninsured patients are required to pay all services in full prior to the services being incurred.

Payment Methods

The following payment methods are accepted: cash, check, money order, credit cards (Mastercard, Visa, Discover) and outside lending institutions. Returned checks will be handled in accordance with the Patient Financial Services Department NSF procedures. A \$35.00 bank fee and a \$25.00 administration fee will be assessed for each returned check. Patients receiving services at our Myrtle Beach and/or Columbia offices may be required to pre-pay for all services to be rendered. If payment is made by credit card via telephone, a credit card receipt will be mailed to the patient after the payment has been processed.

Cryopreservation and Storage

If you have consented to freeze your embryos, oocytes, and/or sperm, a storage fee will occur. If storage fees are not paid within a 30 day period, the fee will be considered delinquent and will enter a collections process that may result in reporting the debt to a credit bureau. Cryopreservation is not included in the deposit estimate and is due within 15 days of transfer. Cryopreservation fees that become delinquent will enter the same collection process as unpaid storage fees.

Cancellation of Cycle

If a cycle is cancelled for any reason, you will be charged for the actual procedures performed according to the standard fee schedule utilized by CFS. Any difference between the cost of the actual procedures performed and the deposit amount will be refunded to the patient/guarantor once the patient has been released from care and all insurance dispositions received.

If you are undergoing an IVF cycle and convert to an IUI cycle, you will only be charged for the actual procedures performed during both cycles. An excess amount paid in your cycle deposit will be refunded to the patient/guarantor once the patient has been released from care and all insurance dispositions received.

Refunds

Overpayments or credit balances greater than \$10.00 will be refunded to the appropriate party after review of the account. Patient refunds will not be processed until the patient is released from care and all insurance dispositions have been received.

In-House Collections

All patient balances must be paid within 30 days of the time of service. Patients with unpaid delinquent accounts over 90 days old will be referred to outside collection, reported to one of the credit reporting agencies and will be denied of receiving further services at CFS.

Referral for Outside Collections

All accounts that cannot be collected by CFS will be referred to a collection agency, magistrate, or attorney for further collection action in accordance with established guidelines as deemed appropriate by the Fair Debt Collection Practices Act. CFS may take legal action, including the lien on personal property, in order to collect balances owed. Any fees assessed will be the responsibility of the debtor.

Electronic Communication Consent

E-mail communication provides for a fast and easy way to communicate with your healthcare provider for those issues that are non-emergent, non-urgent or non-critical. It is not a replacement for the interpersonal contact that is the very basis of the patient-healthcare provider relationship; rather it can support and strengthen an already established relationship.

The following summarizes the information you need to determine whether you wish to supplement your healthcare experience at our practice by electronically communicating with staff members.

General Considerations

- E-mail communication will be considered and treated with the same degree of privacy and confidentiality as written medical records.
- Standard e-mail services, such as AOL, Optonline, Yahoo, and HotMail are not secure. This means that the e-mail messages are not encrypted and can be intercepted and read by unauthorized individuals. Transmitting e-mail that contains protected health information through an e-mail system that is not encrypted does not meet the security guidelines as required by the Health Information Protection and Accountability Act.
- Your E-mail address will not be used for external marketing purposes without your permission. You may receive a group mailing from the practice, however, the recipients e-mail addresses will be hidden.

Provider Responsibilities

- The Provider will attempt to electronically confirm your e-mail address by requesting a return response to all e-mail messages.
- Your provider may route your e-mail messages to other members of the staff for informational purposes or for expediting a response.
- Designated staff may receive and read your e-mail.
- The provider will make every attempt to respond to your email message within 2 business days. If you do not receive a response from the provider within 2 business days, please contact the Practice.
- Copies of e-mails sent and received from and to you will be incorporated into your medical record. You are advised to retain all electronic correspondence for your own files.

Patient Responsibilities

- E-mail messages should not be used for emergencies or time sensitive situations. In event of a medical emergency, you should contact 911. For emergent or time sensitive situations, you should contact your healthcare provider through the office.
- E-mail messages should be concise. Please arrange for an office appointment if the issue is too complex or sensitive to discuss via e-mail.
- Please key in your full name and the topic, i.e., medication question, in the subject line. This will serve to identify you as the sender of the e-mail.
- Please acknowledge that you received and read the provider's message by return e-mail to the provider.

Electronic Communication Consent

I have read and understood the above description of the risks and responsibilities associated with electronic communication with my healthcare provider.

I acknowledge that commonly used e-mail services are not secure and fall outside of the security requirements set forth by the Health Insurance Portability and Accountability Act for the transmission for protected health information.

I have been given the opportunity to discuss electronic communication with my healthcare provider and have had all my questions answered.

In consideration for my desire to use electronic communication as an adjunct to in-person office visits with my provider, I hereby consent to electronic communication via non-secure e-mail services.

Who Will Follow This Notice: This notice describes the information privacy practices followed by our employees, staff and other office personnel. The practices described in this notice will also be followed by health care providers you consult with by telephone (when your regular health care provider from our office is not available) who provide call coverage for your health care provider.

Your Health Information: This notice applies to the information and records we have about your health, health status, and the health care and services you receive at this office. We are required by law to give you this notice. It will tell you about the ways in which we may use and disclose health information about you and describes your rights and obligations regarding the use and disclosure of that information.

How We May Use and Disclose Health Information About You: For Treatment: We may use health information about you to provide you with medical treatment or services. We may disclose health information about you to doctors, nurses, technicians, office staff or other personnel who are involved in taking care of you and your health. For example, your doctor may be treating you for a heart condition and may need to know if you have other health problems that could complicate your treatment. The doctor may use your medical history to decide what treatment is best for you. The doctor may tell another doctor about your condition so that doctor can help determine the most appropriate care for you. Different personnel in our office may share information about you and disclose information to people who do not work in our office in order to coordinate your care, such as phoning in prescriptions to your pharmacy, scheduling lab work and ordering x-rays. Family members and other health care providers may be part of your medical care outside this office and may require information about you that we have.

For Payment: We may use and disclose health information about you so that the treatment and services you receive at this office may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give your health plan information about a service you received here so your health plan will pay us or reimburse you for the service. We may also tell your health plan about a treatment you are going to receive to obtain prior approval, or to determine whether your plan will cover the treatment. If you indicate interest in the Shared Risk Refund Program, we will provide relevant information concerning your medical condition to IntegraMed America, Inc. for determination of your qualifications for this payment program.

BUSINESS ASSOCIATES: There are some services provided at Coastal Fertility Specialists through contacts with business associates. Examples include: the management of services of IntegraMed America, Inc., certain laboratory tests, and the services of social workers or psychologists. When these services are contracted, we may disclose your health information to our business associates so they can perform the job we have asked them to do, and bill you or your third party payer for services rendered. So that your health information is protected, however, we require the business associate to appropriately safeguard your information.

Appointment Reminders: We may contact you as a reminder that you have an appointment for treatment/ medical care at the office.

Treatment Alternatives: We may tell you about or recommend possible treatment options/alternatives that may be of interest to you.

Health Related Products and Services: We may tell you about health related products or services that may be of interest to you. Please notify us if you do not wish to be contacted for appointment reminders, or if you do not wish to receive communications about treatment alternatives or health related products and services. If you advise us in writing (at the address listed at the top of this Notice) that you do not wish to receive such communications, we will not use or disclose your information for these purposes. You may revoke your Consent at any time by giving us written notice. Your revocation will be effective when we receive it, but it will not apply to any uses and disclosures which occurred before that time. If you revoke your Consent, we will not be permitted to use or disclose information for purposes of treatment, payment or health care operations, and we may therefore choose to discontinue providing you with health care treatment and services.

SPECIAL SITUATIONS: We may use or disclose health information about you without your permission for the following purposes, subject to all applicable legal requirements and limitations: To Avert a Serious Threat to Health or Safety: We may use and disclose health information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person.

Research: We may use and disclose health information about you for research projects that are subject to a special approval process. We will ask you for your permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the office.

Organ and Tissue Donation: If you are an organ donor, we may release health information to organizations that handle organ procurement or organ, eye or tissue transplantation or to an organ donation bank, as necessary to facilitate such donation and transplantation.

Military, Veterans, National Security and Intelligence: If you are or were a member of the armed forces, or part of the national security or intelligence communities, we may be required by military command or other government authorities to release health information about you. We may also release information about foreign military personnel to the appropriate foreign military authority.

Health Oversight activities: We may disclose health information to a health oversight agency for audits, investigations, inspections, or licensing purposes. These disclosures may be necessary for certain state and federal agencies to monitor the health care system, government programs, and compliance with civil rights laws.

Law Enforcement, Lawsuits and Disputes: We may release/disclose health information about you if you are involved in a lawsuit or dispute, or if we are asked by a law enforcement official in response to a court or administrative order, subpoena, warrant, summons or similar process, subject to all applicable legal requirements.

Coroners, Medical Examiners and Funeral Directors: We may release health information to a coroner or medical examiner. This may be necessary, for example, to identify a deceased person or determine the cause of death.

Information Not Personally Identifiable: We may use or disclose health information about you in a way that does not personally identify you or reveal who you are.

Family and Friends: We may disclose health information about you to your family members or friends if we obtain your verbal agreement to do so or if we give you an opportunity to object to such disclosure and you do not raise an objection. We may also disclose health information to your family or friends if we can infer from the circumstances, based on our professional judgement that you would not object. For example, we may assume you agree to our disclosure of your personal health information to your spouse when you bring your spouse with you into the exam room during treatment or while treatment is discussed. In situations where you are not capable of giving consent (because you are not present or due to your incapacity or medical emergency), we may, use our professional judgement, determine that a disclosure to your family member or friend is in your best interest. In that situation, we will disclose only health information relevant to the person's involvement in your care. For example, we may inform that person who accompanied you to the emergency room that you suffered a heart attack and provide updates on your progress and prognosis. We may also use our professional judgement and experience to make reasonable inferences that it is in your best interest to allow another person to act on your behalf to pick up, for example, filled prescriptions, medical supplies, or x-rays.

OTHER USES AND DISCLOSURES OF HEALTH INFORMATION: We will not use or disclose your health information for any purpose other than those identified in the previous sections without your specific written Authorization. We must obtain your Authorization separate from any Consent we may have obtained from you. If you give us Authorization to use or disclose health information about you, you may revoke that Authorization in writing at any time. If you revoke your Authorization, we will no longer use or disclose information about you for the reasons covered by your written Authorization, but we cannot take back any uses or disclosures already made with your permission. If we have HIV or substance abuse information about you, we cannot release that information without a special signed, written authorization (different from the Authorization and Consent mentioned above) from you. In order to disclose these types of records for purposes of treatment, payment or health care operations, we will have to have both your signed Consent and a special written Authorization that complies with the law governing HIV or substance abuse records.
